

**Patient Medical Financing**  
Making a Difference in Patients' Lives

**The Growing Burden of Healthcare Consumer Debt**

Patient medical debt is a chronic issue across the United States. US Credit reports enormous burden on patients with estimates of \$140 billion in past-due medical bills. This problem is impacting patient health by creating negative financial relationships with healthcare providers - regardless of clinical outcomes. With rising healthcare costs, gaps in coverage, and increased patient cost sharing, patients are facing increasing financial pressure for out-of-pocket medical costs.

Fortunately, healthcare providers can now offer financing solutions that will help relieve patient financial hardship, while improving patient collections and maintaining a positive relationships with patients.

HiLiteMD specializes in patient financial engagement and helps healthcare providers with tailored programs to optimize RCM
